Thickness: 3,0 mm

- - Plating, Bottom
- - Plating, ½ relief
- - Black

Disclaimer:

For Screen or Digital printing, the Pantone/CMYK colours may vary from the exact value within a range of +/- 10% due to the printing process and material used. These variations are inherent in the process and should be considered as valid by the customer. For more accuracy in colour matching, we require a paper original to be sent to us, this in turn will result in longer delivery times.
